More babies were born to Christian mothers than to members of any other religion in recent years. Less than 20 years from now, however, the number of babies born to Muslims is expected to modestly exceed births to Christians.

### **The Changing Global Religious Landscape | Pew Research Center**

When we turn to black-white differences in the effects of single motherhood on children, we might expect the effects to be more negative for black than for white children, particularly for black boys, because single black mothers are younger, less educated, and poorer than single white mothers.
